SEASON OF 1935

"AT YOUR SERVICE"
FOR THE 39th YEAR

THE
PAGE SEED COMPANY
GREENE - NEW YORK

Greene, N. Y., February, 1935.

To our Customers and Friends:—

We present our 39th Annual Price List for your consideration. Here you will find prices for Dealers only, that is for those who buy for resale to the consumer or user. These prices are those prevailing at the time of going to press, and those which we hope to be able to maintain throughout the planting season. However, these prices are subject to change without notice, as all orders will be accepted at the prices prevailing on the date the order is received, and subject to stock being unsold.

Due to some crop failures, caused by the severe drought of last summer, there are some items that are not priced, as we are sold out, or were unable to secure stocks to enable us to sell at this time. Values on other items have climbed to new heights, due to the shortages, and we can only offer these at present values. If you secured these varieties early at the prices prevailing during the early part of last summer, you should sell according to the present values.

We are sending with this Price List our new edition of our Garden Guide. This book gives the descriptions of nearly all the varieties listed in this Price List. Hence we felt that it was not necessary to repeat. The Garden Guide is available for distribution to your trade, the same as the Corn Manual. If you place an order with us, we will be glad to supply you with a quantity to give to your customers. Should you desire a large number imprinted with your name and address we would be pleased to give you a price.

Look into your requirements for seeds and allied lines today, and send us your order, so that when the demand is made for seeds you will have your supply on hand. Our representative will call on you during the spring and summer, soliciting your order for 1936 delivery.

Our Terms are: Vegetable Seeds—Net Cash June first, 1935. A discount will be allowed if paid within ten days of date of the invoice. Onion Sets, Grasses, Clover, Forage and Field Seeds are Net Cash. Seed Corn—Draft with Bill of Lading. All F. O. B. Greene, N. Y. Bags are charged at value. Note that these terms apply to our customers who have established credit ratings. All others are cash with order or C. O. D.

In common with all reputable seed firms, and as members of The American Seed Trade Association, we offer and send out our seeds under the following Non-Warranty. "The Page Seed Co. gives no warranty express or implied, as to purity, description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and will not be in any way responsible for the crop." Analysis when given, is for information only, and we assume no civil liability.

THE PAGE SEED COMPANY.

STANLEY'S CROW REPELLENT

Will Protect Your
SEED CORN

CROWS
HATE IT

STANLEY'S CROW REPELLENT PROTECTS YOUR SEED CORN

WHY YOU SHOULD USE IT

OVER \$1,000,000 is lost every year on account of crows and other pests pulling corn while it is germinating, sprouting, and rooting. The great extent of this loss is being given more consideration each year by leaders in farming methods, who want the biggest return in bushels grown for the effort and money put in. STANLEY'S CROW REPELLENT protects and insures against this loss.

It is economical. Its cost is only 10c. to 12c. per acre, depending on the quantity of seed used in planting.

As the result of careful and practical study and tests, its ingredients are correctly combined to give the surest protection. Only the best materials, tested for quality, are used in its manufacture.

It is more effective, more convenient to use, and more economical, measured by results, than any other material.

It has been used successfully by experienced corn growers for over twenty years.

WHAT IT DOES

IT Protects your corn during the period when it is most easily damaged, by riding your Crop of Crows, Pheasants, Blackbirds, Larks and all other corn pulling birds, and animal pests such as Moles, Gophers, Woodchucks, Squirrels, etc.

It saves loss of seed and labor of replanting.

It positively will not clog an ~~planter~~.

It protects seed from rotting in the ground.

It insures larger yield per acre.

It is non-poisonous and will not injure the seed of any kind of corn.

It will not kill birds or animals, but will keep them away and prevent destruction by them.

HOW TO USE IT

PLACE the clean, dry corn in a suitable container which will not absorb liquid, and pour Stanley's Crow Repellent over it, mixing thoroughly. After mixing, put corn in planter. It is unnecessary to dry the corn, consequently do not use tar, lime or plaster.

LAWN SEED

We wish to direct your attention to the **QUALITY** of **PAGE'S LAWN SEED MIXTURES**.

Every ingredient contained in Lawn Seed Mixtures is much higher in price than in many years.

Regardless of these higher costs, the **Quality** of Page's Lawn Mixtures has not been sacrificed in any way.

No change in formula

No lowering of purity

No decrease in germination

Our mixtures are composed of the choicest re-cleaned seeds combined in the right proportion to produce the most satisfactory results.

If your requirements are not already booked with us we suggest that you get covered at once.

Why not feature a window display of **PAGE'S STANDARD QUALITY LAWN SEEDS**.—The **QUALITY** which **SATISFIES**; THE **QUALITY** it is a pleasure to sell and a satisfaction to use.

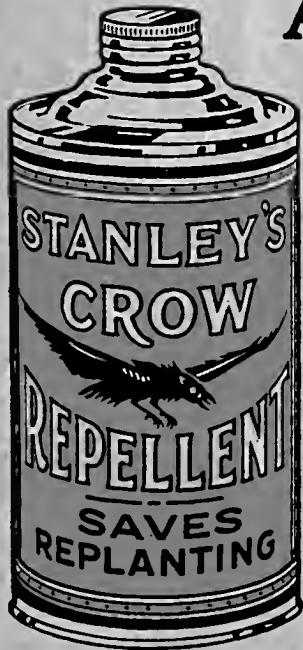

You may obtain it in Bulk, in 2 and 5 pound bags or in Cartons as you wish, and at a price which will permit you to substantially increase your **LAWN SEED** business.

All orders which we now hold will be supplied at the original price. For present prices see inside back cover of our **WHOLESALE PRICE LIST**. For descriptions see both sides of the back cover of our **GARDEN GUIDE**.

When selling please direct your customers' attention to the quality as outlined by the analysis to be found on every package.

PAGE'S STANDARD QUALITY SEEDS IN PACKETS

If you do not already have a display of Page's Seed Packets, we can offer you an interesting opportunity to sell seeds on the commission or consignment basis. We have complete lines of varieties of vegetable and flower seeds in both the five and ten cent classes. These are sold only through dealers (not by school children) and are first class quality. The cabinets of seeds are placed with you on the consignment basis, the shipment going to you without cost, so that you have no investment. The unsold packets are collected by our representative and returned to us with the cabinet, you paying for the seeds that you have actually sold, less a liberal discount.

The packets are very attractive, especially our ten cent line. The cabinets take up very little room, and you can have a choice of sizes. Additional packets for filling in the sold lines are shipped to you promptly, upon receipt of your request, at no extra cost to you. All varieties are chosen for their adaptability to your section of the country. There is no cutting of price, as each cabinet is plainly marked.

Our assortment of flower seeds is unusually attractive. Several new varieties have been added. We also have Beans, Peas and Corn in cartons, which may be had if you desire them.

Write today, telling us your needs, and your preference as to size of cabinet, quantity of packets, whether the five or the ten cent line or both is desired. Your assortment will be shipped at once.
